

# ARCH-FRAME PRESS

**PRESS  
30-40 T**

Our entire range of presses have a cast iron frame which simultaneously give them robustness and great stability when using cutting or bending tools.

One option is to integrate a variable trajectory with three different trajectories on one 40 ton press. The operating speed ranges from 50 to 350 strokes/min (according to the trajectory).

They can be easily adapted to your needs, by inputting your specific installation requirements (feeder, discharge conveyor, various controls, etc.).

	BAGC 30 BF		BAGC 40 BF	
CAPACITY	Mini	Maxi	Mini	Maxi
Speed (str/mn)	50	350 (Depending stroke)	50	350 (Depending stroke)
Tonnage	0	30 tonnes	0	40 tonnes
Height adjustment slider	0	60 mm	0	45 mm
Fix or variable stroke (mm)	20	60	20	60
Table surface	600 * 590		600 * 590	
Front passage	600mm		600mm	
Dimension	H=2600 * P=1400 * L=1300		H=2800 * P=1400 * L=1300	
Total weight	7 tonnes		8,5 tonnes
