

ARCH-FRAME PRESS

**PRESS
60-80 T**

Our entire range of presses have a cast iron frame which simultaneously give them robustness and great stability when using cutting or bending tools.

One option is to integrate a variable trajectory with five different trajectories.

The operating speed ranges from 50 to 300 strokes/min (according to the trajectory).

They can be easily adapted to your needs, by inputting your specific installation requirements (feeder, discharge conveyor, various controls, etc.).

	BAGC 60 BF		BAGC 80 BF	
CAPACITY	Mini	Maxi	Mini	Maxi
Speed (str/mn)	50	300 (Depending stroke)	50	300 (Depending stroke)
Tonnage	0	60 tonnes	0	80 tonnes
Height adjustment slider	0	70 mm	0	70 mm
Fix or variable stroke (mm)	30	80	30	80
Table surface	970*730 mm		970*730 mm	
Front passage	1100mm		1100mm	
Dimension	H=3500 * P=1600 * L=2300		H=3500 * P=1600 * L=2500	
Total weight	13 tonnes		17 tonnes
