

Pressmac offers linear-type or cam-type autonomous slides modules according to the required applications.

LINEAR SLIDES

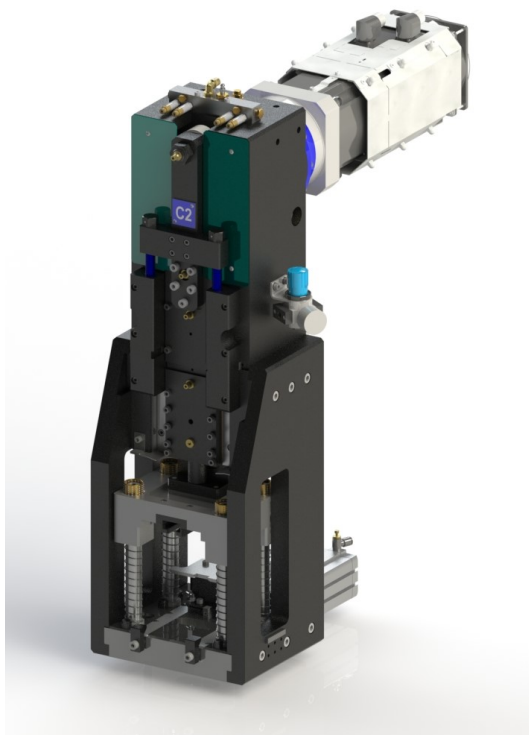

The linear slides can be used for forming and bending but also for inserting or feeding material. There are a variety of applications, with the shaft being a linear-type shaft with constant force on its entire trajectory.

MODEL	TRAJECTORY	FORCE
CL-6	100 mm	6 KN
CL-10	120 mm	10 KN
CL-25	120 mm	25 KN

CAM SLIDES

The cam slides are used for applications requiring significant cutting or bending forces ranging from 2 to 8 tons in limited spaces.

MODEL	TRAJECTORY	FORCE
CC20	40 mm	20 KN
CC40	50 mm	40 KN
CC80	70 mm	80 KN
