

Pressmac has been offering robotics technology for more than 10 years, meeting in the best way possible your requirements and needs in applications such as:

- ▶ Palletizing of parts
- ▶ Automatic product changeover
- ▶ Bulk picking
- ▶ Manipulation of parts from station to station

Our integration of **FANUC** and **KUKA** robots means our clients have a one-stop shop for process lines and only need to adjust the equipment to their environment starting from the design stage.
