

# RESISTANCE WELDING TECHNOLOGIES

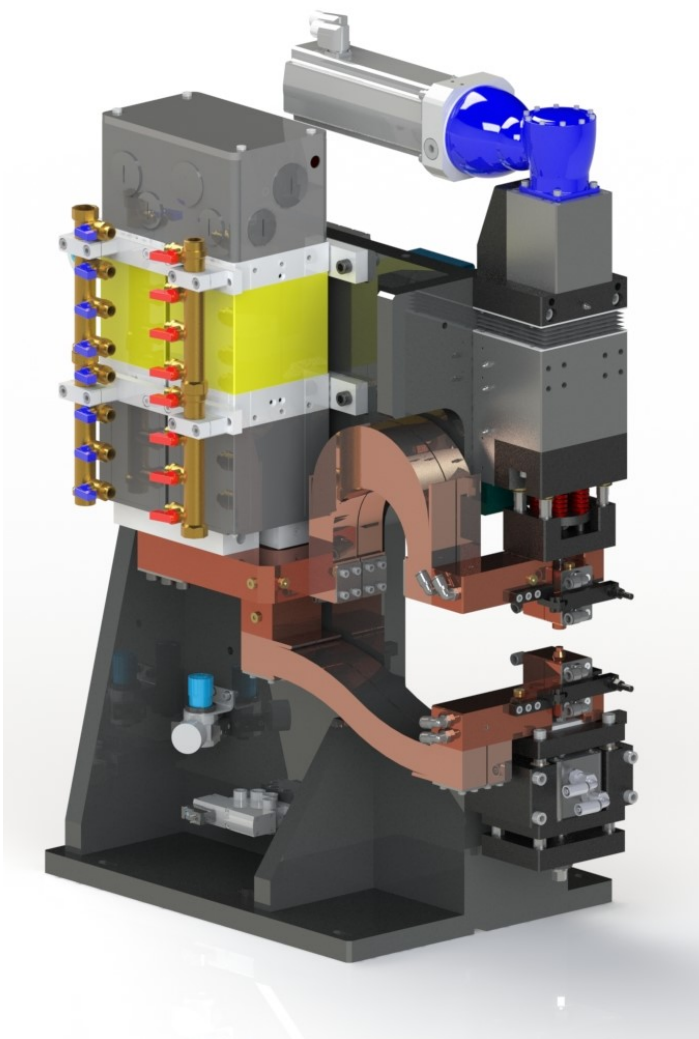

TASV 50

Our welding heads were developed to be integrated into whichever type of machine.  
Various safety controls (subsidence and pressure control).

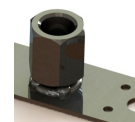

## ADVANTAGES:

- ▶ Line or profile welding
- ▶ No limit in terms of depth of edge of bank
- ▶ DC generator
- ▶ Various safety Controls (sag and pressure control)
- ▶ Pressurization with a large-trajectory spring

	Model	Type of welding	Speed
NC VERTICAL WELDING HEAD	TASV 50	Tip/Nut	Vmax : 120 Strokes/Mn

## MATERIALS WELDED:
